The Globalisation of Addiction Bruce K. Alexander 2008
The Globalisation of Addiction presents a radical rethink about the nature of addiction. Scientific medicine has failed when it comes to addiction. There are no reliable methods to cure it, prevent it, or take the pain out of it. There is no durable consensus on what addiction is, what causes it, or what should be done about it. Meanwhile, it continues to increase around the world. This book argues that the cause of this failure to control addiction is that the conventional wisdom of the 19th and 20th centuries focused too single-mindedly on the afflicted individual addict. Although addiction obviously manifests itself in individual cases, its prevalence differs dramatically between societies. For example, it can be quite rare in a society for centuries, and then become common when a tribal culture is destroyed or a highly developed civilization collapses. When addiction becomes commonplace in a society, people become addicted not only to alcohol and drugs, but to a thousand other destructive pursuits: money, power, dysfunctional relationships, or video games. A social perspective on

addiction does not deny individual differences in vulnerability to addiction, but it removes them from the foreground of attention, because social determinants are more powerful. This book shows that the social circumstances that spread addiction in a conquered tribe or a falling civilisation are also built into today's globalizing free-market society. A free-market society is magnificently productive, but it subjects people to irresistible pressures towards individualism and competition, tearing rich and poor alike from the close social and spiritual ties that normally constitute human life. People adapt to their dislocation by finding the best substitutes for a sustaining social and spiritual life that they can, and addiction serves this function all too well. The book argues that the most effective response to a growing addiction problem is a social and political one, rather than an individual one. Such a solution would not put the doctors, psychologists, social workers, policemen, and priests out of work, but it would incorporate their practices in a larger social project. The project is to reshape society with enough force and imagination to enable people to find social integration and meaning in everyday life. Then great

numbers of them would not need to fill their inner void with addictions.

To Fix or To Heal Joseph E. Davis 2016-02-26 Do doctors fix patients? Or do they heal them? For all of modern medicine's many successes, discontent with the quality of patient care has combined with a host of new developments, from aging populations to the resurgence of infectious diseases, which challenge medicine's overreliance on narrowly mechanistic and technical methods of explanation and intervention, or "fixing" patients. The need for a better balance, for more humane "healing" rationales and practices that attend to the social and environmental aspects of health and illness and the experiencing person, is more urgent than ever. Yet, in public health and bioethics, the fields best positioned to offer countervailing values and orientations, the dominant approaches largely extend and reinforce the reductionism and individualism of biomedicine. The collected essays in *To Fix or To Heal* do more than document the persistence of reductionist approaches and the attendant extension of medicalization to more and more aspects of our lives. The contributors

also shed valuable light on why reductionism has persisted and why more holistic models, incorporating social and environmental factors, have gained so little traction. The contributors examine the moral appeal of reductionism, the larger rationalist dream of technological mastery, the growing valuation of health, and the enshrining of individual responsibility as the seemingly non-coercive means of intervention and control. This paradigm-challenging volume advances new lines of criticism of our dominant medical regime, even while proposing ways of bringing medical practice, bioethics, and public health more closely into line with their original goals. Precisely because of the centrality of the biomedical approach to our society, the contributors argue, challenging the reductionist model and its ever-widening effects is perhaps the best way to press for a much-needed renewal of our ethical and political discourse.

Never Enough Judith Grisel 2020 "Addiction is epidemic and catastrophic. With more than one in every five people over the age of fourteen addicted, drug abuse has been called the most formidable health problem worldwide. If we are not victims ourselves, we all know someone struggling with the merciless compulsion to alter their experience by changing how their brain functions. Drawing on years of research--as well as personal experience as a recovered addict--researcher and professor Judy Grisel has reached a fundamental conclusion: for the addict, there will never be enough drugs. The brain's capacity to learn and adapt is seemingly infinite, allowing it to counteract any regular disruption, including that caused by drugs. What begins as a normal state punctuated by periods of being high transforms over time into a state of desperate craving that is only temporarily subdued by a fix, explaining why addicts are unable to live either with or without their drug. One by one, Grisel shows how different drugs act on the brain, the kind of experiential effects they generate, and the specific reasons why each is so hard to kick. Grisel's insights

lead to a better understanding of the brain's critical contributions to addictive behavior, and will help inform a more rational, coherent, and compassionate response to the epidemic in our homes and communities"--

Language Arts in Asia Christina DeCoursey 2012-01-17 This volume is the first of a series contributing to the academic study of Language Arts, as an English-language teaching paradigm. Language Arts has been widely used in native English-speaking countries including Australia and New Zealand. Its recent adoption into the second-language teaching curriculum in Hong Kong, as well as similar initiatives within secondary and tertiary education in mainland China, enhances its interest to scholars studying second-language teaching and learning in Asian contexts. This book offers many papers and discussions of interest to teachers, language professionals, scholars and administrators. Its chapters explore current topics in Language Arts research including trends in the rapprochement of stylistics and linguistics, teaching approaches and learning outcomes. At the same time, they offer diverse theoretical and methodological approaches, of interest to the practitioner and policy-maker as well as the researcher. The value of this volume lies particularly in

strengthening the theoretical and methodological foundations of Language Arts. The use of literature and the arts in humanist education has a long history within Europe, being traditionally appreciated for its ability to transform leaders, instill finer sensibilities and question social ills. In its postcolonial incarnations, as the traditional subject areas were informed by critical and linguistic theories, language arts subject areas were less often used, as they were understood to offer opportunities to analyse their functions as apology for leaders, coopting the young, and pacifying dissent but less often used to teach second language skills. Language Arts curricula arising since the 1980s have increasingly embraced authentic voices, styles and genres. Contemporary Language Arts curricula use literature to teach reading-based and communication skills, in conjunction with critical and creative thinking. The movement of English-language education beyond native English shores has placed Language Arts into a World Englishes frame, and therefore its curricula have included the teaching ethics, civics and intercultural sensitivity. The explosion of media and digital communications of the 1990s led to the adoption of media literacy as a crucial Language Arts skill. As digital innovations continue to impact the teaching of English, Language Arts has adopted multiliteracies. These developments are represented in the papers included in this volume.

Whetstone Lorna Crozier 2014-04-01 National-award-winning poet Lorna Crozier's new collection of poems are peopled by the seasons and their elements, her beloved prairies, sorrow, joy, and the dead. Central to their themes are revisitations of family and marriage, and the land-death that is drought. Universal, deeply moving, crowded with breathtaking imagery, these are darkly resonant poems of middle age: alert to the beauty in loss, cherishing the humanity that is whetted on that stone. This is Lorna Crozier, one of Canada's most highly celebrated poets, at the top of her form.
Challenging Addiction in Canadian Literature and

Classrooms Cara Fabre 2016-01-01 In the richly interdisciplinary study, *Challenging Addiction in Canadian Literature and Classrooms*, Cara Fabre argues that popular culture in its many forms contributes to common assumptions about the causes, and personal and social implications, of addiction. Recent fictional depictions of addiction significantly refute the idea that addiction is caused by poor individual choices or solely by disease through the connections the authors draw between substance use and poverty, colonialism, and gender-based violence. With particular interest in the pervasive myth of the "Drunken Indian", Fabre asserts that these novels reimagine addiction as social suffering rather than individual pathology or moral failure. Fabre builds on the growing body of humanities research that brings literature into active engagement with other fields of study including biomedical and cognitive behavioural models of addiction, medical and health policies of harm reduction, and the practices of Alcoholics Anonymous. The book further engages with critical pedagogical strategies to teach critical awareness of stereotypes of addiction and to encourage the potential of literary analysis as a form of social activism.

The Juggling Act Peggy Edwards 2011-05-18 After Peggy Edwards, Miroslava Lhotsky, and Judy Turner published their highly successful first book, *The Healthy Boomer: A No-Nonsense Guide to Midlife Health for Women and Men*, they embarked on a series of workshops with health professionals and men and women in midlife. Like them, the participants often found it almost impossible to juggle the responsibilities of midlife and still find time and energy for themselves. Translating the principles of balance and good health into daily action is difficult, and the authors knew from their seminars that participants were always pleased to hear stories of struggle and success from others. It made sense, they concluded, to ask Boomers themselves the best ways to manage midlife. To get a sense of common issues in midlife and possible coping strategies, they sent out a

questionnaire and conducted telephone interviews to draw out more in-depth ideas. The results are found in this book, a collection of anecdotes, quotes, and wisdom from Boomers themselves. In midlife, we start to get in touch with the fact that our time on earth will not last forever and is precious. This book provides a variety of ways of looking at this fact and of thinking about the choices ahead. There are motivating stories from Boomers (some, such as Pamela Wallin, known to many), brief updates from the scientific world, and interesting tidbits of information from the survey.

The Wrong Cat Lorna Crozier 2015-03-31 Like the people and animals in her new collection, Lorna Crozier "defies / the anecdotal, / goes for the lyric, / music made from / bone and muscle and the grace notes" of life. The poems in *The Wrong Cat* are vintage Crozier: sly, sexy, irreverent, and sad, and populated by fully realized characters whose stories take place in a small lyrical space. We learn about a mother's last breath, the first dog in heaven, a man's fear that his wife no longer loves him, and the ways in which animals size up the humans around them and find them wanting. With Crozier's celebrated mix of vibrant imagery, piercing observations, and deeply felt human emotions, these poems provide an affirmation in the midst of the fluid, often challenging nature of experience.

The Addicted Lawyer Brian Cuban 2017-08-29 Brian Cuban was living a lie. With a famous last name and a successful career as a lawyer, Brian was able to hide

his clinical depression and alcohol and cocaine addictions—for a while. Today, as an inspirational speaker in long-term recovery, Brian looks back on his journey with honesty, compassion, and even humor as he reflects both on what he has learned about himself and his career choice and how the legal profession enables addiction. His demons, which date to his childhood, controlled him through failed marriages and stays in a psychiatric facility, until they brought him to the brink of suicide. That was his wake-up call. This is his story. Brian also takes an in-depth look at why there is such a high percentage of problematic alcohol use and other mental health issues in the legal profession. What types of therapies work? Are 12-step programs the only answer? Brian also includes interviews with experts on the subject as well as others in the profession who are now in recovery. The Addicted Lawyer is both a serious study of addiction and a compelling story of redemption.

In the Realm of Hungry Ghosts Gabor Maté, MD 2011-06-28 From bestselling author Gabor Maté, the essential resource for understanding the roots and behaviors of addiction—now with an added introduction by the author. Based on Gabor Maté's two decades of experience as a medical doctor and his groundbreaking work with the severely addicted on Vancouver's skid row, *In the Realm of Hungry Ghosts* radically reenvision this much misunderstood field by taking a holistic approach. Dr. Maté presents addiction not as a discrete phenomenon confined to an unfortunate or weak-willed few, but as a continuum that runs throughout (and perhaps underpins) our society; not a medical "condition" distinct from the lives it affects, rather the result of a complex interplay among personal history, emotional, and neurological development, brain chemistry, and the drugs (and behaviors) of addiction. Simplifying a wide array of brain and addiction research findings from around the globe, the book avoids glib self-help remedies, instead promoting a thorough and compassionate self-understanding as the first key to healing and wellness. *In the Realm of Hungry Ghosts* argues persuasively

against contemporary health, social, and criminal justice policies toward addiction and those impacted by it. The mix of personal stories—including the author's candid discussion of his own "high-status" addictive tendencies—and science with positive solutions makes the book equally useful for lay readers and professionals. Addicted Lorna Crozier 2016-02-05 Is addiction a disease, a sin, a sign of hypersensitivity, a personal failing, or a unique resource for the creative mind? However it is defined, addiction can have devastating consequences, often shattering lives, sundering families, causing impoverishment, and even triggering suicide. Yet it can also be a source of inspiration. In these frank essays, leading American and Canadian writers explore their surprisingly diverse personal experiences with this complex phenomenon, candidly recounting what happened when alcohol, heroin, smoking, food, gambling, or sex -- sometimes in combination -- took over their lives.

Small Mechanics Lorna Crozier 2013-08-20 A radiant collection of new poems from one of Canada's most renowned and well-read poets. The poems in Lorna Crozier's rich and wide-ranging new collection, a modern bestiary and a book of mourning, are both shadowed and illuminated by the passing of time, the small mechanics of the body as it ages, the fine-tuning of what a life becomes when parents and old friends are gone. Brilliantly poised between the mythic and the everyday, the anecdotal and the delicately lyrical, these poems contain the wit, irreverence, and startling imagery for which Crozier is justly celebrated. You'll find Bach and Dostoevsky, a poem that turns into a dog, a religion founded by cats, and wood rats that dance on shingles. These poems turn over the stones of words and find what lies beneath, reminding us why Lorna Crozier is one of Canada's most well-read and commanding voices.

More Than Balloons Lorna Crozier 2017-04-04 Balloons love the moon, and a tuba loves a tune, but these don't compare to the love we have for you. Award-winning poet

Lorna Crozier uses evocative rhyme, complemented by Rachelle Anne Miller's whimsical imagery, to provide babies and toddlers with common concepts that explain just how great love is.

What the Stones Remember Patrick Lane 2006-12-12 In this exquisitely written memoir, poet Patrick Lane describes his raw and tender emergence at age sixty from a lifetime of alcohol and drug addiction. He spent the first year of his sobriety close to home, tending his garden, where he cast his mind back over his life, searching for the memories he'd tried to drown in vodka. Lane has gardened for as long as he can remember, and his garden's life has become inseparable from his own. A new bloom on a plant, a skirmish among the birds, the way a tree bends in the wind, and the slow, measured change of seasons invariably bring to his mind an episode from his eventful past. *What the Stones Remember* is the emerging chronicle of Lane's attempt to face those memories, as well as his new self—to rediscover his life. In this powerful and beautifully written book, Lane offers readers an unflinching and unsentimental account of coming to one's senses in the presence of nature.

Attachment and Character Edward Harcourt 2021-10-14 There are many exciting points of contact between developmental psychology in the attachment paradigm and the kinds of questions first raised by Aristotle's ethics, and which continue to preoccupy moral philosophers today. The book brings experts from both fields together to explore them for the first time, to demonstrate why philosophers working in moral psychology, or in 'virtue ethics' - better, the triangle of relationships between the concepts of human nature, human excellence, and the best life for human beings - should take attachment theory more seriously than they have done to date. Attachment theory is a theory of psychological development. And the characteristics attachment theory is a developmental theory of - the various subvarieties of attachment - are evaluatively inflected: to be securely attached to a parent is to

have a kind of attachment that makes for a good intimate relationship. But obviously the classification of human character in terms of the virtues is evaluatively inflected too. So it would be strange if there were no story to be told about how these two sets of evaluatively inflected descriptions relate to one another. *Attachment and Character* explores the relationship between attachment and prosocial behaviour; probes the concept of the prosocial itself, and the relationship between prosocial behaviour, virtue and the quality of the social environment; the question whether there even are such things as stable character traits; and whether attachment theory, in locating the origins of virtue in secure attachment, and attachment dispositions in human evolutionary history, gives support to ethical naturalism, in any of the many meanings of that expression.

Before the First Word Lorna Crozier 2006-01-01 Lorna Crozier's radical imagination, and the finely tuned emotional intelligence that is revealed in the clarity of her poetry, have made her one of Canada's most popular poets. *Before the First Word: The Poetry of Lorna Crozier* is a collection of thirty-five of her best poems, selected and introduced by Catherine Hunter, and includes an afterword by Crozier herself. Representing her work from 1985 to 2002, the collection reveals the wide range of Lorna Crozier's voice in its most lyrical, contemplative, ironic, and witty moments. Hunter's introduction discusses the poet's major themes, with particular attention to her feminist approach to biblical myth and her fascination with absence and silence as sites for imaginative revision. Crozier's afterword, "See How Many Ends This Stick Has: A Reflection on Poetry," is a lyrical meditation that provides an inspirational glimpse into the philosophy of a writer who prizes the intensity of awareness that poetry demands, and is tantalized by what predates speaking and all that can't be named. An engaging volume that will appeal to undergraduate students as well as general readers of poetry. Lorna Crozier's work has won

many awards, including the Governor Generals Award in 1992 (for *Inventing the Hawk*), the first prize for poetry in the CBC Literary Competition, the Canadian Authors Association Award for Poetry in 1992, a National Magazine Award in 1995, and two Pat Lowther Memorial Awards (1993 and 1996) for the best book of poetry by a Canadian woman. She has published fourteen books of poetry, most recently, *Whetstone*. Born in Swift Current, Saskatchewan, she now lives in British Columbia, where she is a Distinguished Professor at the University of Victoria.

Material Cultures in Canada Thomas Allen 2015-06-18
Material Cultures in Canada presents the vibrant and diverse field of material culture studies in Canadian literary, artistic, and political contexts today. The first of its kind, this collection features sixteen essays by leading scholars in Canada, each of whom examines a different object of study, including the beaver, geraniums, comics, water, a musical playlist, and the human body. The book's three sections focus, in turn, on objects that are persistently material, on things whose materiality blends into the immaterial, and on the materials of spaces. Contributors highlight some of the most exciting new developments in the field, such as the emergence of "new materialism," affect theory, globalization studies, and environmental criticism. Although the book has a Canadian centre, the majority of its contributors consider objects that cross borders or otherwise resist national affiliation. This collection will be valuable to readers within and outside of Canada who are interested in material culture studies and, in addition, will appeal to anyone interested in the central debates taking place in Canadian political and cultural life today, such as climate change, citizenship, shifts in urban and small-town life, and the persistence of imperialism.

David Adams Richards of the Miramichi Tony Tremblay 2010-04-15
Widely considered to be one of Canada's most important authors, David Adams Richards has been honoured with a Giller Prize and two Governor General's

Literary Awards. Despite this, there has been a dearth of critical appraisal of his life and works. In David Adams Richards of the Miramichi, Tony Tremblay sheds light not only on Richards' art and achievements, but also on Canadian literary criticism in general. Tremblay maps out the early influences on Richards' thinking and writing by drawing on interviews, archival records, and cultural studies of New Brunswick. He argues that the author is a more sophisticated craftsman than his critical reception has assumed and makes the case for a more nuanced analysis of his works. Equal parts literary biography, literary criticism, and cultural study of New Brunswick, David Adams Richards of the Miramichi provides a rare glimpse into the struggles and triumphs of a New Brunswick artist in a national and provincial milieu.

Going Top Shelf Michael P. J. Kennedy 2005
Going Top Shelf brings together for the first time in one collection some of Canada's best hockey poems and song lyrics. Included are works by such outstanding Canadian poets as Michael Ondaatje, Al Purdy, Margaret Avison, Don Gutteridge and Lorna Crozier. And for music lovers with a taste for contemporary Canadian music, this entertaining collection includes lyrics by The Tragically Hip, The Rheostatics, Kathleen Edwards, Stompin' Tom Connors, and others. *Going Top Shelf* represents a cross-section of Canada's poets and composers, ranging from 19th-century romantic poet Sir Charles G.C. Roberts to contemporary pop songstress Jane Siberry. Altogether, more than 30 authors and songwriters from across Canada reflect an intriguing diversity of forms and literary expression. Yet in all the poems, ice—or the sport played to extensively in Canada upon it—is used to express the ideas, beliefs and attitudes of this diverse group of Canadian authors. For the poetry scholar, for the lover of good music, for the hockey fan, this is a collection to be enjoyed. Indeed, *Going Top Shelf* represents a literary "top shelf" of hockey poetry without equal.

Transforming Addiction Lorraine Greaves 2015-04-10
Choice Highly Recommended Read Addiction is a complex problem that requires more nuanced responses. Transforming Addiction advances addictions research and treatment by promoting transdisciplinary collaboration, the integration of sex and gender, and issues of trauma and mental health. The authors demonstrate these shifts and offer a range of tools, methods, and strategies for responding to the complex factors and forces that produce and shape addiction. In addition to providing practical examples of innovation from a range of perspectives, the contributors demonstrate how addiction spans biological, social, environmental, and economic realms. Transforming Addiction is a call to action, and represents some of the most provocative ways of thinking about addiction research, treatment, and policy in the contemporary era.

God of Shadows Lorna Crozier 2018-08-21 The celebrated poet hailed by Ursula K. Le Guin as a "storyteller, truth-teller, and visionary" gives us a mesmerizing new collection of poems that are funny, wise, moving, and surprising. How many gods can dance on the head of Lorna Crozier's pen? The poet Lorna Crozier has always been brilliant at fusing the ordinary with the other-worldly in strange and surprising ways. Now the Governor General's Literary Award-winning author of *Inventing the Hawk* returns with *God of Shadows*, a wryly wise book that offers a polytheistic gallery of the gods we never knew existed and didn't know we needed. To read these poems is to be ready to offer your own prayers to the god of shadows, the god of quirks, and the god of vacant houses. Sing new votive hymns to the gods of horses, birds, cats, rats, and insects. And give thanks at the altars of the gods of doubt, guilt, and forgetting. What life-affirming questions have these deities come to ask? Perhaps it is simply this: How can poems be at once so profound, original and lively, and also so much fun?
Small Beneath the Sky Lorna Crozier 2011-02-18 A volume

of poignant recollections by one of Canada's most celebrated poets, *Small Beneath the Sky* is a tender, unsparing portrait of a family and a place. Lorna Crozier vividly depicts her hometown of Swift Current, with its one main street, two high schools, and three beer parlors—where her father spent most of his evenings. She writes unflinchingly about the grief and shame caused by poverty and alcoholism. At the heart of the book is Crozier's fierce love for her mother, Peggy. The narratives of daily life—sometimes funny, sometimes heartbreaking—are interspersed with prose poems. Lorna Crozier approaches the past with a tactile sense of discovery, tracing her beginnings with a poet's precision and an open heart. Also available in hardcover.

The Globalization of Addiction Bruce Alexander 2010-03-04 Addiction is increasing all around the world, and the conventional remedies don't work. The *Globalization of Addiction* argues that the cause of this failure to control addiction is that past treatments have focused too single-mindedly on the afflicted individual addict. This book presents a radical rethink about the nature of addiction.

The Age of Fentanyl Brodie Ramin 2020-03-14 Is there a way to end North America's opioid epidemic? In *The Age of Fentanyl*, Brodie Ramin tells the story of the opioid crisis, showing us the disease and cure from his perspective as an addiction doctor working on the front lines. We meet his patients, hear from other addiction experts, and learn about the science and medicine of opioid addiction and its treatments. He shows us how addiction can be prevented, how knowledge can reduce stigma, and how epidemics can be beaten. Dr. Ramin brings the hopeful message that just as patients and health care workers rallied together to fight HIV one generation ago, a coalition of patients, advocates, scientists, doctors, and nurses is once again finding solutions and making plans to stem the overdose deaths, block the spread of fentanyl, and end the epidemic.

Inventing the Hawk Lorna Crozier 1992 The poems in this haunting new book are both playful and provocative, witty and intimate. Central to the collection is a powerful elegy for her father. Beginning with his death, it moves back in time to the author's childhood in a small Saskatchewan community. *Inventing the Hawk* reveals the small pleasures of day-to-day life, sometimes visited by "Angels" who offer a novel, often shocking perspective on reality. As well, Crozier translates love and the experience of loss into a language resonant with

desire and longing. A language that speaks to the most private aspects of ourselves. This is poetry that will change the way we look at our lives.

The Wrong Cat Lorna Crozier 2015 A radiant collection of new poems from one of Canada's most renowned and well-read poets. Brilliantly poised between the mythic and the everyday, the anecdotal and the delicately lyrical, these poems contain the wit, irreverence, and startling imagery for which Crozier is justly celebrated. They include the intimate and sometimes difficult conversations between husbands and wives, shadowed as they often are by faithlessness, compromise, and other betrayals; the ways in which crows, owls, and deers size up the humans around them and find them wanting (More rapacious than us, more needy./They never take the shortest route/and use too many words when a caw would do.); memories of a past whose influences and ghosts are still felt in the present.

Treating Heroin Addiction in Norway Aleksandra Bartoszko 2021-07-06 Focusing on the world of Norwegian Opioid Substitution Treatment (OST) in the aftermath of significant reforms, this book casts a critical light on the intersections between medicine and law, and the ideologies infusing the notions of "individual choice" and "patient involvement" in the field of addiction globally. With ethnographic attention to the encounters between patients, clinicians, and bureaucrats, the volume shows that OST sustains the realities it is meant to address. The chapters follow one particular patient through complex clinical and legal battles as they fight to achieve a better quality of life. The study provides ethnographic insight that captures the individual, experiential aspects of addiction treatment, and how these experiences find a register within different domains of treatment and policy, including the familial, social, legal, and clinical. Offering a rare view of addiction treatment in a Scandinavian welfare state, this book will be of interest to scholars of medical and legal anthropology and sociology, and others with an interest in drug policy and addiction treatment.

The Blue Hour of the Day Lorna Crozier 2009-02-24 Over the course of a career spanning three decades, Lorna Crozier has become one of Canada's most beloved poets, receiving high acclaim and numerous awards, including the Governor General's Award, the Pat Lowther Poetry Award, and the Canadian Authors Association Award. Now, in this definitive selection of poems, which draws on her eight major collections and includes many of the poems for which she is justly celebrated, Crozier's trademark investigations of family, spirituality, love's fierce attachments, and bereavement and loss have been given a new framework. As a sapphire generates a blue light from within, *The Blue Hour of the Day* demonstrates Crozier's dazzling capacity to bring depths to light, unflinchingly and unflinchingly. It represents the best work of an icon of Canadian poetry.

For three years, they've pretended to be in a real relationship, hiding their addictions from their families. They've mastered the art of concealing flasks and random guys that filter in and out of their apartment. But as they sink beneath the weight of their addictions, they cling harder to their destructive relationship and wonder if a life together, for real, is better than a lie. Strangers and family begin to infiltrate their guarded lives, and with new challenges, they realize they may not just be addicted to alcohol and sex. Their real vice may be each other.

Peter Gzowski R.B. Fleming 2010-08-27 Born in 1934, Peter Gzowski covered most of the last half of the century as a journalist and interviewer. This biography, the most comprehensive and definitive yet published, is

also a portrait of Canada during those decades, beginning with Gzowski's days at the University of Toronto's *The Varsity* in the mid 1950s, through his years as the youngest-ever managing editor of *Maclean's* in the 1960s and his tremendous success on CBC's *Morningside* in the 1980s and 1990s, and ending with his stint as a *Globe and Mail* columnist at the dawn of the 21st century and his death in January 2002. Gzowski saw eight Canadian Prime Ministers in office, most of whom he interviewed, and witnessed everything from the Quiet Revolution in Quebec to the growth of economic nationalism in Canada's West. From the rise of state medicine to the decline of the patriarchy, Peter was there to comment, to resist, and to participate. Here was a man who was proud to call himself Canadian and who made millions of other Canadians realize that Canada was, in what he claimed was a Canadian expression, not a bad place to live.
