Badenheim Nineteen Thirty-nine Aharon Appelfeld 2009 It is the spring of 1939 in the age of anxiety. In months Europe will be Hitler's. And Badenheim, a resort town vaguely in the orbit of Vienna, is preparing for its summer season. The vacationers arrive as they always have, a sampling of Jewish middleclass life: the impresario Dr. Pappenheim, his musicians, and their conductor; the gay Frau Tsauberblit; the historian Dr. Fussholdt and his much younger wife; the 'readers, ' twins whose passion for Rilke is featured on their program; a child prodigy; a commercial traveler; a rabbi. The list waxes as the summer wanes. To receive them in the town are the pharmacist and his worried wife, the hotelier and his large staff, the pastry shop owner and his irritable baker, Sally and Gertie (two quite respectable prostitutes), and, mysteriously, the bland inspectors from the "Sanitation Department." The story unfolds as matter-of-factly as a Chekhov play. The characters on stage are so deeply held by their defensive daily trivia that they manage to misconstrue every signal of their fate. Finally, de facto prisoners in their familiar resort, the vacationers, now increased by the forced crowding-in of other Jews hardly on vacation, take on the lineaments of undefined disaster. The text builds a sense of foreboding in which each human detail is so persuasive, so right in its fidelity to the terrible evasions of the time, that it leaves the reader transformed by what he and the author know must happen to Badenheim's people. Badenheim 1939 owes everything to its author's astonishing capacity to recreate the energies and confusions of innocent and uncomprehending victims who, always loyal to civility and social graces, fail to even dimly see the cruel terms of their imminent fate.

The Comorbidities of Epilepsy Marco Mula 2019-04-20 Epilepsy is one of most frequent neurological disorders affecting about 50 million people worldwide and 50% of them have at least another medical problem in comorbidity; sometimes this is a the cause of the epilepsy itself or it is due to shared neurobiological links between epilepsy and other medical conditions; other times it is a long-term consequence of the antiepileptic drug treatment. The Comorbidities of Epilepsy offers an up-to-date, comprehensive overview of all comorbidities of epilepsy (somatic, neurological and behavioral), by international authorities in the field of clinical epileptology, with an emphasis on epidemiology, pathophysiology, diagnosis and management. This book includes also a critical appraisal of the methodological aspects and limitations of current research on this field. Pharmacological issues in the management of comorbidities are discussed, providing information on drug dosages, side effects and interactions, in order to enable the reader to manage these patients safely. The Comorbidities of Epilepsy is aimed at all health professionals dealing with people with epilepsy including neurologists, epileptologists, psychiatrists, clinical psychologists, epilepsy specialist nurses and clinical researchers. Provides a comprehensive overview of somatic, neurological and behavioral co-morbidities of epilepsy Discusses up-to-date management of comorbidities of epilepsy Written by a group of international experts in the field

A Guide to Taxila John Marshall 2013-06-20 Sir John Marshall (1876-1958) was a British archaeologist who was the Director-General of the Archaeological Survey of India from 1902 to 1928. First published in 1960, as the fourth edition of a 1918 original, this book was written to provide a concise guide to the ruins of Taxila, excavation of which was led by Marshall. The introductory chapters give the topographical and historical background, and the main body of the work discusses the various groups of buildings and the material they were found to contain. Numerous illustrative figures, a glossary of technical terms and a bibliography are also included. This book will be of value to anyone with an interest in Taxila and archaeology.

Giacometti James Lord 1997-10-30 The work of one of the towering creative spirits of the century, Alberto Giacometti's visionary sculptures and paintings from a testament to the artist's intriguing life story. From modest beginnings in a Swiss village, Giacometti went on to flourish in the picturesque milieu of prewar Paris and then to achieve international acclaim in the fifties and sixties. Picasso, Balthus, Samuel Beckett, Stravinsky and Sartre have parts in his story, along with flamboyant art dealers, whores, shady drifters, unscrupulous collectors, poets and thieves. Women were a complex yet important element of his life--particularly his wife, Annette, and his last mistress and model, Caroline--as was the intimate relationship he shared with his brother Diego, who was both Alberto's confidant and collaborator. James Lord was personally acquainted with Giacometti and his entourage, and combines firsthand experience with a unique knowledge gathered during many years of observation and research. In this exceptional biography Lord unfolds the personal history of a man who managed to achieve a heroic destiny by remaining utterly true to himself and to his calling. Giacometti: A Biography was nominated for the National Book Critics Circle Award. James Lord has subsequently published three volumes of memoirs. In recognition of his contribution to French culture he has been made an officer of the Legion of Honour.

Indian Army Chief's Parijat Tripathi 2021-01-01 The lives of these Army Directors are an inspiration for us, so that we too, can follow their footsteps and serve the country and be called the "heroic sons" of our country. It is a matter of pride for me that I have got an opportunity to write about the directors of the Indian Army. With the slogan given by the former Indian Prime Minister Sri Lal Bahadur Shastri; I present this book to my brilliant readers. — Parijat Tripathi

Looking at Giacometti David Sylvester 1997-04-15 Winner of a Venice Biennale Golden Lion Award, Looking at Giacometti is a compelling mixture of biography and criticism, including an

extraordinary interview with Giacometti. Written over a period of forty years, Looking at Giacometti is a profound response to the art of one of modernism's greatest sculptors. It takes students from world-renowned art critic David Sylvester's first visits to Giacometti's studio in the late 1940s to the author's prolonged sitting for the artist's portrait of him in the 1960 and reflections on his complete oeuvre after Giacometti's death. A compelling mixture of biography and criticism, and including a sixteen-page insert of black and white photographs by Patricia Matisse, this book sheds new light on twentieth-century art and thought.

Indian Social Work Bishnu Mohan Dash 2020-10-06 This book provides multiple frameworks and paradigms for social work education which integrates indigenous theories and cultural practices. It focuses on the need to diversify and reorient social work curriculum to include indigenous traditions of service, charity and volunteerism to help social work evolve as a profession in India. The volume analyzes the history of social work education in India and how the discipline has adapted and changed in the last 80 years. It emphasizes the need for the Indianization of social work curriculum so that it can be applied to the socio-cultural contours of a diverse Indian society. The book delineates strategies and methods derived from meditation, yoga, bhakti and ancient Buddhist and Hindu philosophy to prepare social work practitioners with the knowledge, and skills, that will support and enhance their ability to work in partnership with diverse communities and indigenous people. This book is essential reading for teachers, educators, field practitioners and students of social work, sociology, religious studies, ancient philosophy, law and social entrepreneurship. It will also interest policy makers and those associated with civil society organizations.

The Copernicus Project National Aeronautics and Space Adm Nasa 2018-11-08 The Copernicus spacecraft, to be launched on May 4, 2009, is designed for scientific exploration of the planet Pluto. The main objectives of this exploration is to accurately determine the mass, density, and composition of the two bodies in the Pluto-Charon system. A further goal of the exploration is to obtain precise images of the system. The spacecraft will be designed for three axis stability control. It will use the latest technological advances to optimize the performance, reliability, and cost of the spacecraft. Due to the long duration of the mission, nominally 12.6 years, the spacecraft will be powered by a long lasting radioactive power source. Although this type of power may have some environmental drawbacks, currently it is the only available source that is suitable for this mission. The planned trajectory provides flybys of Jupiter and Saturn. These flybys provide an opportunity for scientific study of these planets in addition to Pluto. The information obtained on these flybys will supplement the data obtained by the Voyager and Galileo missions. The topics covered include: (1) scientific instrumentation; (2) mission management, planning, and costing; (3) power and propulsion system; (4) structural subsystem; (5) command, control, and communication; and (6) attitude and articulation control. The RTI Story: Power to the People Aruna Roy 2018-05-31 The RTI Story: Power to the People is the story of a campaign that evolved into a genuine and vibrant people's movement. Culled from the voices of people, often such stories only feed into the research of scholars, largely unacknowledged and forgotten. The dominant narrative is always from the perspective of the ruler and single individuals. One had hoped that democracy would set it right. But the people who are the primary contributors to the discourse always remain on the fringes. Written by Aruna Roy with the MKSS collective, this book is for everyone who asks questions, seeks answers to fight corruption and injustice and challenges arbitrary power. It is a celebration of commitment laced with humour, the struggle, the songs, the theatres of protest, long spells on the street and drafting a peoples' law.

The Necessary Art of Persuasion Jay A. Conger 2008-09-08 In an age when managers can no longer rely on formal power, persuading people is more important than ever. Persuasion is a process of learning from colleagues and employees and negotiating shared solutions to solving problems and achieving goals. In The Necessary Art of Persuasion, Jay Conger describes four essential components of persuasion and explains how to master them, providing the information you need to fulfill your managerial mandate: getting work done through others.

My Father's War Adriaan van Dis 2004 Born in Holland after the war, a son grows up an outsider in the midst of his family. Living in isolation among the dunes of coastal Holland, he looks on as his Indonesian father and sisters are mocked for their 'yellow skin', endures the bizarre and brutal military training his father puts him through, and wonders about the hardships his family suffered but never discusses. Years later, the middle-aged son begins a quest into his family's past in Indonesia, and the origins of his father's strange mix of charm and cruelty. Despite his sister's denial and his mother's evasiveness, details surface about the incredible endurance of his father, one of the few survivors of torture in the camp. Returning always to the Dutch coast where he spent his childhood, the man comes to a final acceptance of his father and a new understanding of their relationship.
