A Different Sea Claudio Magris 2011-05-31 Early this century Enrico, a young intellectual, leaves the city of Gorizia with its abundant population and culture, to spend several years living on the Patagonian pampas, alone with his ancient Greek texts, his flocks and, every now and then, a woman. He has been taught by his closest friend, Carlo, a philosopher/poet who commits suicide in his early twenties, to search for an authentic life, free of social falsehoods. But in his search for this unattainable goal, Enrico destroys every chance he has of a normal existence. This is portrait of a world in ferment, a decaying empire shaken by war and revolution, and a life-long search for meaning.

A Manual of Hebrew Poetics Luis Alonso Schökel 1988 "This manual closes a circle which began almost thirty-five years ago (November, 1954) with the beginning of work on a doctoral dissertation defended at the Pontifical Biblical Institute in April, 1957 (published in Spanish in 1962). During three decades of teaching

and writing the author has kept an active interest in poetics and stylistics and the resulting accumulated knowledge has been concentrated in the present manual. The primary purpose of the book is not to serve as a source of Information about facts and authors but rather to initiate the reader into the stylistic analysis of poetry. To obtain Information and to classify it the reader can turn to recent works (Watson), earlier works (Knig, Hempel), or reprinted works (Bullinger). Among the poetic techniques discussed are Sound and sonority, rhythm, imagery, figures of Speech, dialogue and monologue, development and composition"--Page 4 of cover.

The Enchafed Flood W. H. Auden 2015-07-09 Excerpt from The Enchafed Flood: Or the Romantic Iconography of the Sea Revolutionary changes IN sensibility OR style are rare. The most famous is, perhaps, the conception of 'amor' which appeared in Europe in the twelfth century. The disappearance, during the Sixteenth, of allegory as a common literary genre is another. The complex of attitudes and styles which emerges towards the end of the eighteenth century and is called, more conveniently than accurately, Romanticism is a third. These chapters are an attempt to understand the nature of Romanticism through an examination of its treatment of a Single theme, the sea. National Healths Michael Worton 2013-07-04 In today's globalised world, it is increasingly important to understand the otherness of different societies and their beliefs, histories and practices. This book focuses on a burning cultural issue: how concepts and constructions of gender and sexuality impact upon health, medicine and healthcare. Starting from the premise that health is neither a universal nor a unitary concept, it offers a series of interdisciplinary analyses of what sickness and well-being have been, are and can be. The originality of this book is its cross-cultural and trans-historical approach. Bringing together specially commissioned work by both major critical voices and young scholars in fields ranging from anthropology and art history to philosophy, political science and sociology, this volume challenges many traditional assumptions about gender, medicine and health-care. Issues addressed include: the politics and realities of female genital mutilation; sex-work and migration; the portrayal of mothering in contemporary African writing; the representation of AIDS in literature, photography and the media; the place of gender in ancient Egyptian health papyri; the dramatisation of morality and sexual over-indulgence in Thai literature; the relationship between myths of menstruation and power in early modern England; the role of anger in traditional Chinese medicine; and the ways in which both disease and sexual identities were redefined by cholera in the nineteenth century. The wide-ranging Introduction provides a historical and theoretical framework for what is defined here as Cultural Medicine, whilst fifteen original essays demonstrate from different perspectives that health is not merely a physiological and medical issue, but also a cultural and ethical one. An invaluable research and study resource, this book is written in a clear and accessible style and will be of interest to the general reader as well as to students of all levels, to teachers

The Witch of Edmonton Thomas Dekker 2021-11-22 At the center of this remarkable 1621 play is the story of Elizabeth Sawyer, the titular "Witch of Edmonton," a woman who had in fact been executed for the crime of witchcraft mere months before the play's first performance. Described by the authors as a tragi-comedy and drawn in part from a pamphlet account of the trial then circulating, the play not only offers a riveting account of the contemporary superstitions embodied by the figure of the witch, but also delivers an implicit critique of the society that has created her. This edition of the work offers a compelling and informative introduction, thorough annotation, and a selection of contextual materials that helps set the play in the context of the "witch-craze" of Jacobean England.

The Comedies Terence 2008-01-10 'I thought you'd do what the common run of slaves normally do, cheating and tricking me because my son's having an affair.'
Terence's comedies have provided plots and characters for comic drama from classical times to the present; the outstanding comic playwright of his generation at Rome, he has influenced authors from Molière and Wycherley to P. G. Wodehouse. Scheming slaves, parasites, prostitutes, pimps, and boastful soldiers populate his plays, which show love triumphing over obstacles of various kinds, and the problems that arise from ignorance, misunderstanding, and prejudice. Although they reflect contemporary tensions in Roman society, their insights into human nature and experience make them timeless in their appeal. Peter Brown's lively new translation does full justice to Terence's style and skill as a dramatist. Reading Eco Umberto Eco 1997 Examines some of Eco's writings together with secondary sources in order to arrive at a more comprehensive critique of his literary theories and his notions of general semiotics as a cognitive social/cultural practice. Articles on literary semiotics, which comprise the second section, focus primarily on Eco, Peirce, Bakhtin, Greimas, Borges, and Derrida. Part three examines aspects of Eco's fiction. -Choice This is the first contemporary attempt at a holistic theory of rhetoric, well grounded in the context of cultural and social history. Arguing that rhetoric has always been an independent, objective, essential factor in human interaction, Valesio views it as coextensive with human speech in use.
